*Madrid, Novemb.* 10. The Ambassador of *Venice* at this Court has desired leave to raise 2000 Men in the Kingdom of *Naples* for the Service of that Republick, and has we are told obtained it, but with condition that this Levy be made by persons appointed for that purpose by the Viceroy of that Kingdom. The King has given the place of President of the Council of the *Indies*, Vacant by the Resignation of Prince *Vincent de Gonzague*, to the Marquis *de los Veles*, and that of Master of the Horse to the Queen, to the Marquis *de los Balbaces*. The Count *de Mansfelt* Ambassador Extraordinary from the Emperor, is made Knight of the Order of the *Golden Fleece*, and has thereupon received the Compliments of all the Foreign Ministers, and most of the persons of Quality of this Court. The King it's said has sent Orders to the Count *de Melgar* Governor of *Milan* to reform the Troops he raised during the late differences between the Crown of *France* and the Republick of *Genoua*. Count *Ernest de Muller* is arrived here from the Emperor. The Ambassador of *Holland* makes very pressing instances for the restitution of the Dutch Vessels that were carried into *Cadiz* by Vice-Admiral *Papachino*.

*Genoua, Novemb.* 15. The Count *de Melgar* is still here, but will return to *Milan* after he has seen 6 or 700 Foot of the Forces of the *Milanez* embark at a Port about 10 miles from this place, from whence they are to be transported to *Catalonia*. The Spanish Gallies sailed from hence the 8th instant for *Naples*, but meeting with very ill weather, were forced to return into this Port, where they still continue. The Marquis *Gherardo Spinola*, Named by the Senate to go to *France* in Quality of Envoy Extraordinary from this Republick, has not yet accepted of that Employment.

*Warsaw, Octob.* 29. We have an account that the Militia of most of the *Palatinates* are actually on their march, in pursuance of the Kings Orders, to joyn the Army of this Crown, but the Letters from the Frontiers telling us, that the Turks and Tartars were separated, the former retiring towards the *Danube*, and the latter towards *Bagiac*, and that the Forces of this Kingdom have repassed the *Niester*, and are about going into their Winter-quarters, we are expecting to hear that directions are sent to the said Militia to return to their several Palatinates.

*Vienna, Novemb.* 18. The Imperial Troops continue their progress in Upper *Hungary*; The Baron *de Mercy* has lately taken the Town of St. *Nicolas*, where he found a Magazin of all sorts of Ammunition; The Turks left likewise in *Saravas* a great quantity of Ammunition and Provisions, and 30 pieces of Cannon, and in other places the Imperialists have taken a great deal of Forage, which their Horse were before in some want of. The Emperor has given the Government of *Zolnock* to Major General *Heussler*, who is now there with a Garison of 1500 Men. The Elector of *Cologne* has granted the Emperor half his Troops which served this Summer in *Hungary*, to be incorporated into the Imperial Regiments, upon condition that his Imperial Majesty do provide for the Officers, as for the other half of the said Troops they are to remain in a distinct
